

Statomix® MR Static Mixers

[Download Brochure](#)

The Statomix® MR static mixers provide maximum high-shear mixing by rotating the inner elements using the Ashby Cross DYNA-STAT® dynamic mixing dispense head. The high-shear mixing energy assures complete and thorough mixing of many difficult to mix urethanes. The mixers are disposable like other standard static mixers eliminating the need for costly and environmentally unfriendly solvents.

MR MIXERS FOR DYNAMIC MIX/DISPENSE VALVE			
Size	P/N	Alt. P/N	MR Static Mixers with Dynamic
1/4"	MR 06-12	DM250-12DS	Mix/Dispenser valves
